

Developing Pedagogical and Social-psychological Skills Course (for PhD students and VSE academical workers)

COURSE PROGRAMME (DATE FORMAT: DD/MM/YYYY)

09/ 11/ 2026 09:00 - 10:00 Online	1) Introduction to the Course Requirements information, etc. <i>Ing. Kateřina Půbalová, Ph.D, AC, KMPS</i>
12/ 11/ 2026 09:00 – 12:00 IB 305 AK	2) „What I wish I had known when I first started teaching. “ Share experiences on the journey from PhD student to outstanding FPH lecturer. Topics we'll cover: course design, theory vs. practice, students and lecturers, tools, tips, and tricks. <i>Ing. Michal Andera, Ph.D., KPO</i>
18/ 11/ 2026 09:00 – 12:00 IB 202 QM	3) Learning to teach with Cases – The student experience Teaching using cases is a fascinating experience. It is a session with many "aha" moments where the instructor leads the conversation with questions to provide students with the required knowledge. It is a different teaching method that is frequently used in the best business schools worldwide. This training aims to provide an understanding of teaching with cases by immersing the participant in the role of the student who has to navigate all phases of knowledge acquisition through this technique. <i>Ing. Felipe Martínez, Ph.D., KLOG</i>
23/ 11/ 2026 09:00 – 12:00 online	4) Introduction to Moodle Aim is to introduce participants to the basic functions and structure of Moodle and enable them to create and organize a simple course, add learning materials and activities, and use the platform effectively to support teaching and student learning. <i>Olga Palasová, OŘK REK</i>
27/ 11/ 2026 09:00 – 12:00 Online MS Teams	5) How to tackle InSIS – tips and tricks for teachers Goal is to help navigating different InSIS functions that can be used when teaching. During the practical workshop we will go through different InSIS functions that can help you when teaching and managing classes, including assessment scores, course submission rooms, automatic assessment and consultation management and room reservation. We will also share tips and tricks, discuss so far experience, etc. <i>Ing. Kateřina Půbalová, Ph.D, AC, KMPS</i>
03/ 12/ 2026 09:00 – 12:00 IB 305 AK	6) Affinity Continuum – The detailed continuum as a tool for developing competences This three-hour experiential workshop will introduce the concept of the Affinity Continuum, as published in the Transactional Analysis Journal. This model provides a framework for effectively supporting the development of competencies and the building of professional identity amongst students, clients and participants in training programmes, whether in the role of a lecturer, coach or teacher. Participants will learn about the theoretical foundations of the continuum and, through interactive activities, will practise applying it in real-life situations. Together, we will explore how to consciously choose the degree of similarity and difference between ourselves and a client or group in order to foster motivation, learning and growth, and how to tailor teaching to individual needs. <i>Ing. Jan Šimek, external lecturer</i>
Different dates in IB 302 AK	7) “Micro-teaching” Training 15-minute demonstration of your teaching („micro-teaching“) and participation at in-person training, with following reflection of gained feedback from peers and an instructor. Dates: • 14/ 12/ 2026 09:00 – 12:00 • 07/ 01/ 2027 09:00 – 12:00
